

WOODWORKS®  
ACGI  
Species &  
Stains

# Specify the PERFECT Wood Species + Stain

To make the selection process easier, we've put together this guide that shows our standard wood veneers, solids, and finishes. Don't see exactly what you're looking for? Any commercially available solid wood or veneer can be sourced. In addition to our standard finishes, we can create or coordinate any color to meet your project's requirements.

## FSC® CERTIFIED

Additional lead time is required for species with FSC® certification.

Veneer species are more readily available in FSC certified flitches.

The mark of  
responsible forestry

## Celebrate the Natural Beauty

## VENEER MATCHING EXPLAINED

### BOOK MATCH

One method of matching a veneer is book match. This is accomplished by opening consecutive veneer layers as if opening a book. It creates a symmetrical pattern that effectively displays a wood's grain. It is best used with a plain sliced veneer.

### SLIP MATCH

Another method of matching veneer is slip match. This is accomplished when stacked layers of veneer are “slipped” across each other and laid side-by-side. This creates a linear pattern and is commonly used in most wall panels.

### RANDOM MATCH

Random matching is just what it sounds like. Usually done with lower grades of veneer, the leaves may be of varying width, colors, and grains.

# WOOD VENEER SPECIES

## Afromosia – Beech

*We can manufacture  
your project with  
any commercially  
available wood*

**Alder**  
quarter cut

**Anigre**  
plain sliced

**Anigre**  
quarter cut

**Ash**  
plain sliced

**Ash**  
quarter cut

**Beech**  
plain sliced

**Beech**  
quarter cut

▲ WoodWorks® ACGI Grille; Qualcomm Pacific Center Campus, San Diego, CA

**NOTE:** These color samples are reproduced by a printing process so the colors represented may not match the wood's actual color. In addition, since no two trees are identical, wood can be expected to differ both in color and graining. This is what makes wood so beautiful. Stained sample will be provided for approval before project goes into production.

# WOOD VENEER SPECIES

## Cherry – Maple

*We can manufacture  
your project with  
any commercially  
available wood*

**Cherry**  
plain sliced

**Cherry**  
quarter cut

**Cherry**  
reconstituted

**Douglas Fir**  
vertical grain

**Eucalyptus**  
quarter cut, figured

**Hickory**  
plain sliced

**Mahogany (African)**  
quarter cut

**Makore**  
plain sliced

**Makore**  
quarter cut

**Maple**  
plain sliced

**NOTE:** These color samples are reproduced by a printing process so the colors represented may not match the wood's actual color. In addition, since no two trees are identical, wood can be expected to differ both in color and graining. This is what makes wood so beautiful. Stained sample will be provided for approval before project goes into production.
