# ABOVE & BEYOND Reinventing the ceiling.

**Imagine:** A ceiling so completely fresh and unusual it seems practically reinvented. A ceiling that mimics the pattern on an ice cream cone. Or the intricate veins of a dragonfly wing. Can you picture it? Maybe it's reminiscent of a carnival Ferris wheel... or a faceted, shimmering diamond.

**What if** you could break free of material constraints and let your space reflect the wonders of your limitless imagination? What if you could design a ceiling in any color you like?

**What if** you could bring your vision to life in just a few weeks?

There's no more "what if."

**Now, there's DesignFlex™ Ceiling Systems.**

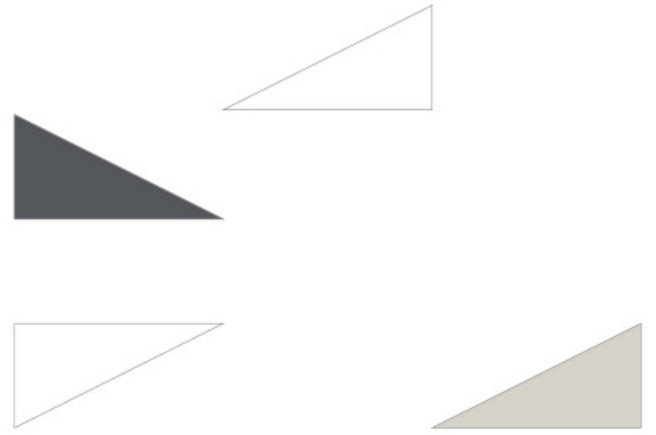

**So, go ahead...**

**Go above. Go beyond. Reinvent your ceiling.**

A New World of Choice  
for Ceiling Systems

# Creating a DesignFlex™ Ceiling System

[armstrongceilings.com/patterngallery](http://armstrongceilings.com/patterngallery)

## 1. Pick a pattern

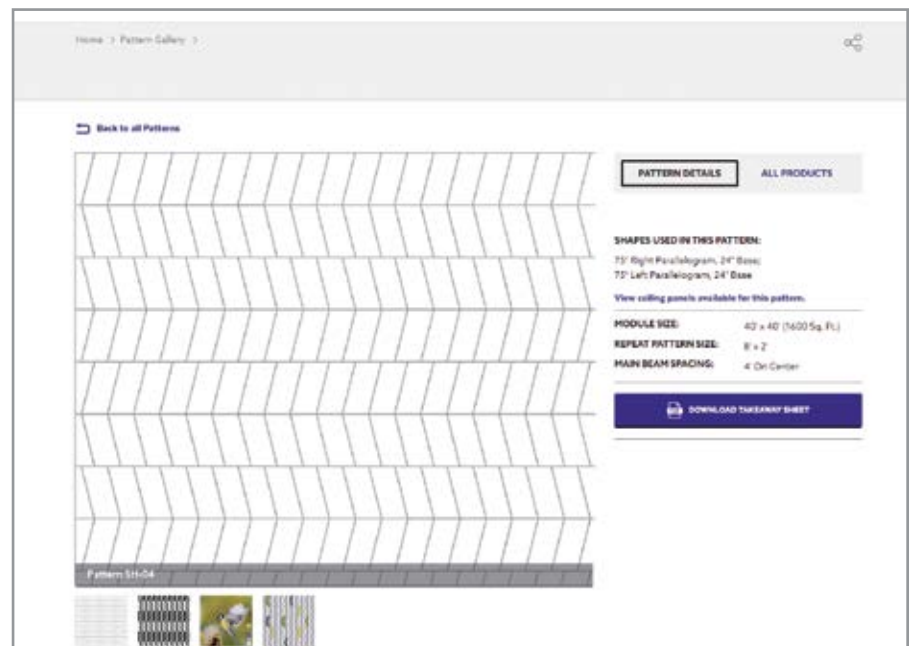

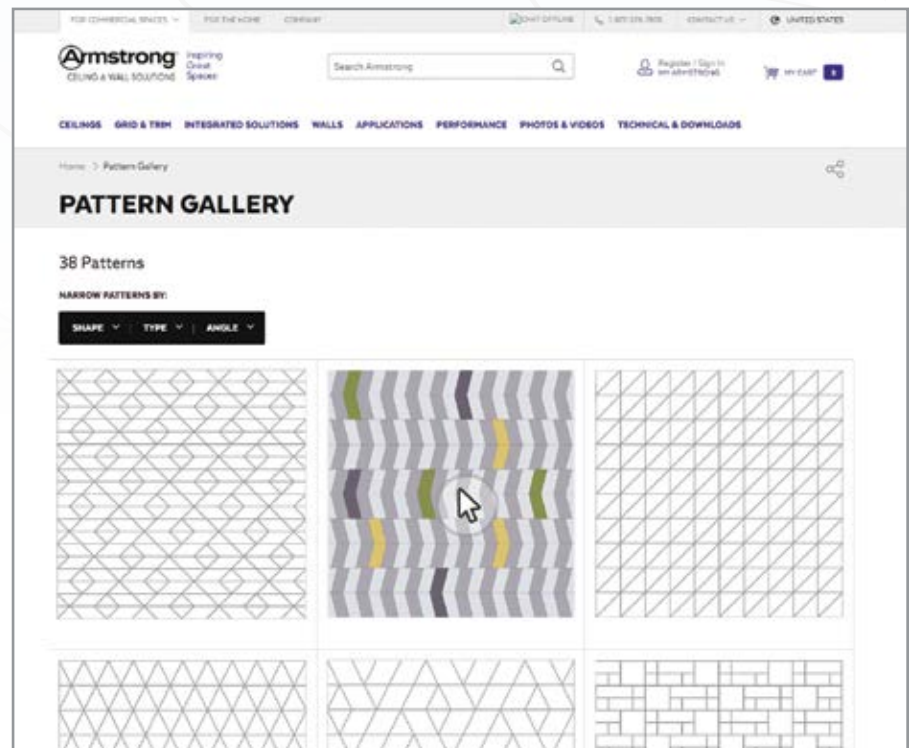

See dozens of pre-designed patterns in our pattern gallery or create a layout unique to your project.

## 2. Add personality

Choose from a variety of color palettes (or create your own!) and mix and match different sizes, shapes, and materials to reinvent your ceiling.

## 3. Complete your vision

Add integrated lighting, diffusers, suspension, trims, and accessories. Online, you'll get complete details and a bill of materials for the pattern chosen to ease the specification and installation process.

# Lighting and MEP Integration for DesignFlex™ Ceiling Systems

This layout integrates 4" TechZone® technical panels and 4" linear lights.

Our TechZone® lighting partners offer linear lighting as narrow as 4" as well as more traditional lighting options. These fixtures are pre-qualified for fit and finish. See lighting options at [armstrongceilings.com/partners](http://armstrongceilings.com/partners).

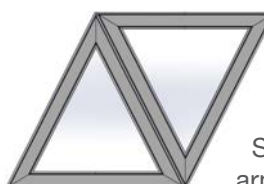

**TECHZONE®**  
CEILING SYSTEMS

Shaped lights and diffusers are available through partner companies or you can use standard modular and pendant fixtures.

This layout integrates Axis linear lighting and Armstrong® DesignFlex™ Shapes Infill Panels.

Unique shaped infill ceiling panels are available for use with lighting. Axis lighting fixtures are pre-qualified for fit & finish. See lighting options at [armstrongceilings.com/partners](http://armstrongceilings.com/partners).

**axis**

T-BAR FLEX™ lights are pre-qualified for fit and finish and are available through our lighting partner, JLC-Tech.

Also, in addition to standard modular and pendant fixtures, our TechZone® lighting partners offer a variety of compatible solutions.

**JLC • tech**

## Diffusers

Diffusers that complement the module size you're using in your design are available for DesignFlex layouts. Price® diffusers have been pre-qualified for fit & finish. Shaped infill ceiling panels are available for use with these diffusers. Visit [armstrongceilings.com/partners](http://armstrongceilings.com/partners) for details.
