

CEILING CONSTRUCTION EFFICIENCIES FOR GENERAL CONTRACTORS

WE'RE HERE TO HELP:

- Reduce fabrication time required for linear air distribution, window pockets, and ceiling elevation changes at the perimeter
- RCP review to identify time and cost saving opportunities
- Detail conversion of integrated solutions for your project
- Specification support
- Training support

WHY DO PERIMETER DETAILS MATTER?

BUDGET

Keeping your project on budget

SCHEDULE

Utilizing proven pre-fabricated/modular products to accelerate your construction schedule

INNOVATION

Providing you faster ways to control quality and cost through innovative solutions

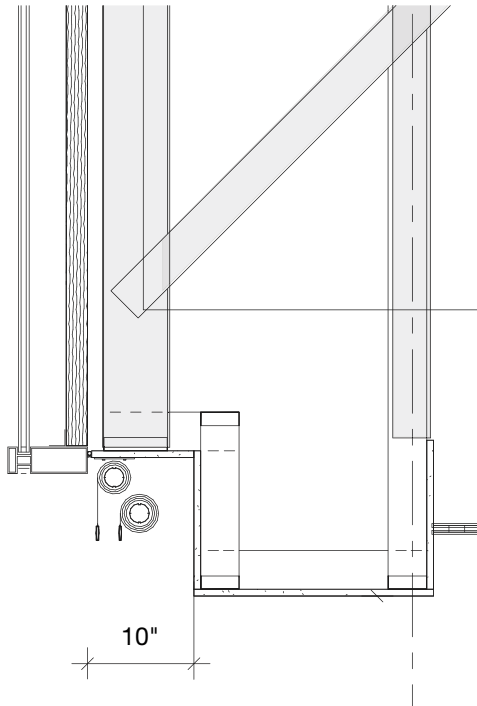

SAFETY

Less time in construction means lowering safety risk

INTEGRATED CEILING PERIMETERS

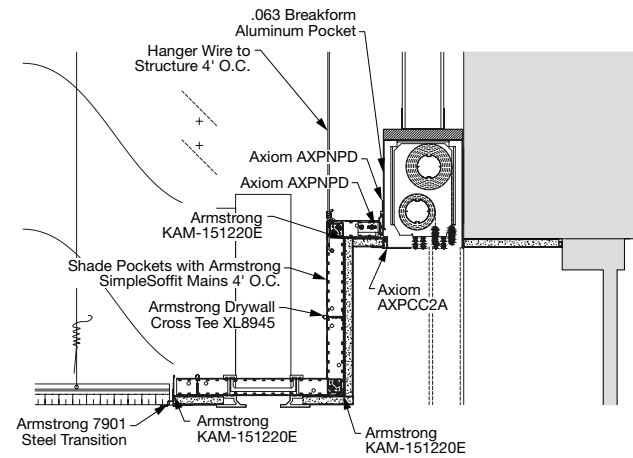

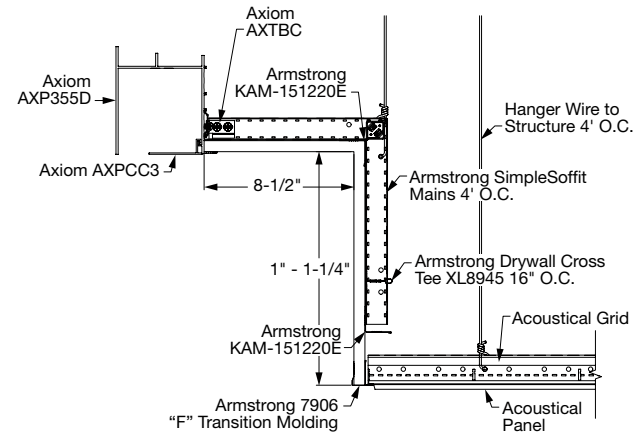

GAIN THE EDGE

TRADITIONAL STUD FRAMING

- Field fabricated stud framing
- Drywalling
- Mudding
- Sanding
- Painting
