

The Armstrong FASTSIZE™ program offers made-to-order sizes and colors for ceiling panels and suspension systems. FASTSIZE is ideal for designs with building modules that are not standard or are designed with narrow linear fixtures or diffusers.

#### KEY FEATURES & BENEFITS

**FASTER** – No field cutting or painting – The bigger the project, the more on-site time and labor you'll save, so you can get in and out faster

24-hour quote turn-around and shipped FAST!

**EASIER** – Easy to quote, order and install – Quotes include unique item numbers to include in finish instructions

**FLEXIBLE** – With a broad range of dimensional capabilities for both panel and grid, contractors have the flexibility to order what they need for each project

**24** HOUR  
QUOTE TURNAROUND

**24** HOUR  
SHIP DATE CONFIRMATION

- **FAST** Programs Video

Refer to the Configure an Item section on ceiling panel web pages to view FASTSIZE eligibility:

A screenshot of a web form for FASTSIZE Made-To-Order Sizes. It features a header with the FASTSIZE logo and text: "Made-To-Order Sizes 1 ctn minimum, 3 weeks (order to ship)". Below this is a form with two input fields for dimensions, separated by an "x" symbol, and a "Go" button. A note below the fields says "(Enter dimensions by 0.5)". Underneath, there are labels for "Width" and "Length" with their respective minimum and maximum values: Width (Min: 4, Max: 72) and Length (Min: 4, Max: 72).
