

Construction Efficiencies for General Contractors

Modular Solutions for Common Ceiling Transitions

ABOUT AXIOM TRANSITIONS

- Extruded aluminum provides crisp edge detail
- Consistent, improved aesthetic
- Eliminate stud framing to deck
- Reduce trade coordination (no drywall finishing)
- Meets the most stringent sustainability compliance standards today

AXIOM FIELD TRANSITION

- In place of bulkhead
- Available in 1-1/2", 4", or 6" bulkhead widths

- Transition intersecting ceilings or two types of ceilings
- Acoustical to acoustical transitions only

AXIOM ELEVATION CHANGE TRANSITION

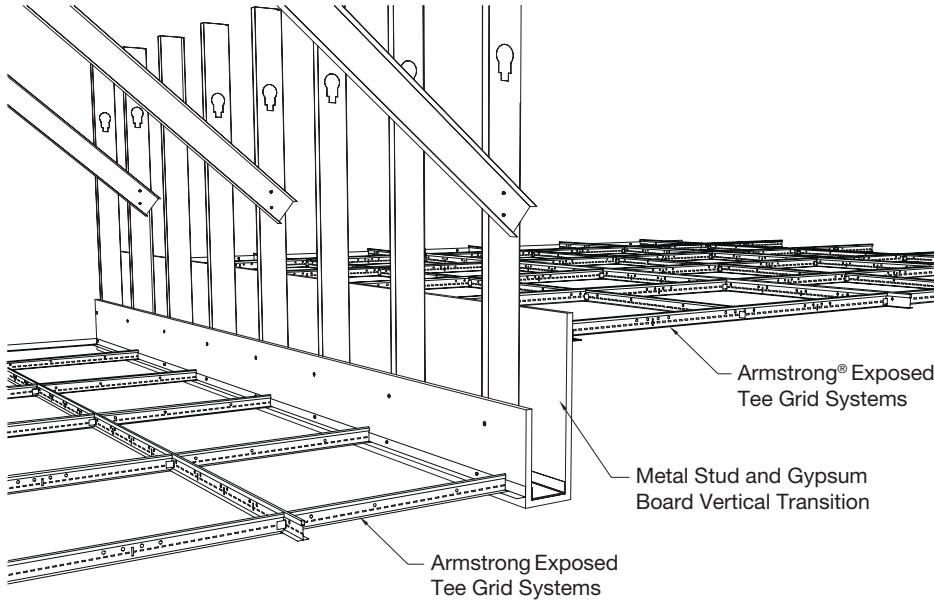

- Straight and curved elevation less than 10"
- Available transition heights of 1", 2", 4", 6", 8", and 10"
- Save up to 40% on installation time
- Acoustical to drywall transitions
