Axiom® Vector trim

Axiom Vector Perimeter Trim
Armstrong Suspension System
AXTBC
Vector Ceiling Panel

This trim coordinates perfectly with Armstrong® Vector ceiling panels to mimic the 1/4" reveal with a narrow vertical fin profile.

KEY SELECTION ATTRIBUTES

- Recommended for use with full-size Vector ceiling panels; preserves factory-cut Vector edge detail
- Adjustable Trim Clip (item 7329 purchased separately) allows for integration of Axiom Vector with WoodWorks and MetalWorks panels that drop greater than 3/8" below the grid flange. Reference installation instructions for requirements.

- Incorporates the sophisticated grid-hiding visual of a Vector ceiling with a perimeter
- Dynamic curving capabilities
- Factory precision mitering and custom lengths available as special order
- Axiom trim is part of the Sustain™ portfolio and meets the most stringent industry sustainability compliance standards today

- CleanAssure™ family of products – includes disinfectable panels, suspension systems, and trim (Cleaning and CDC approved disinfecting options available on armstrongceilings.com/cleaning)
- Recommended for use with full-size Vector ceiling panels; preserves factory-cut Vector edge detail

- Colors coordinate with Armstrong® ceiling and suspension systems
- Extruded aluminum trim provides more crisp edge detailing compared to conventional roll-formed steel systems
- Compatible with Armstrong® exposed suspension systems and Drywall Grid Systems
- Custom slotting, perforating, and cutouts available

COLORS Due to printing limitations, shade may vary from actual product.

DYNAMIC CURVING CAPABILITIES

Axiom® Dynamic Curving is a new manufacturing capability that enables straight and curved to be produced on a single, continuous piece of trim (single orientation only). This industry-first capability maximizes material usage with full-length pieces and minimizes joints and visible seams.

Design Considerations
Physical product samples for standard and custom colors are available upon request. Please refer to the physical product sample prior to making a final selection. While we strive to ensure exact color matches, various factors such as differences in materials, texture, substrate porosity, painting processes, lighting, and observer subjectivity can all affect how paint colors appear on ceiling and wall panels, suspension systems, and trim products. Due to these and other differences, ceiling and wall panels, trim products, and suspension systems with the same color name will coordinate but may not be an exact color match. Product is dye-lotted. Order sufficient initial quantities and attic stock to minimize possible color variation.
