## PHYSICAL DATA

### Material

Aluminum, 0.016" thick

### Dimensions

Panel: Nominal 24 × 24 × 1-1/2" blade height x 9/16" blade width (matches 9/16" suspension system)

### Interior Cell Sizes

3", 4", 6", and 8"

Custom cell sizes also available upon request as premium options.

### Surface Finish

Powder-coated, post-production painted finish. Contact TechLine for custom color matching requests.

### Fire Performance

Class A: ASTM E84, CAN/ULC S102 surface burning characteristics. Flame Spread Index 25 or less. Smoke Developed Index 50 or less.

### Fire Performance with Sprinklers

MetalWorks Open Cell ceilings may affect the planned fire sprinkler water distribution pattern, or possibly delay or accelerate the activation of the sprinkler or fire detection systems by channeling heat from a fire either toward or away from the device.

Designers and installers are advised to consult a fire protection engineer, NFPA 13, and local codes for guidance where automatic fire detection and suppression systems are present.

### Design Considerations

It is recommended to install full size panels. The inside of the Channel Molding (item 7835) is unfinished and will be visible if the full size panel is field modified.

### Seismic Restraint

MetalWorks Open Cell Lay-in panels have been engineered, tested, and approved for application in all seismic areas when installed per Armstrong installation instructions.

### FAST134 Program Considerations

Size of Job Matters: Big jobs, over 2500 SF or 50 pieces for shapes/vertical elements will have longer lead times.

Location Matters: Transit time not included. We are ready to ship in 1 week on FAST1 items. However, transit to the states west of Wyoming may add time.

Distributor Truck Schedule Matters: We rely on distribution to help move products around the country. When speed matters, work with your local distributor to ensure FAST134 service.

Stock vs Made-to-Order Matters: FAST3 & FAST4 items are made-to-order and will ship direct to distributor. FAST1 (stocked items) will go through distribution and depend on distributor truck schedules.

### Warranty
