▲ WoodWorks Grille – Classics wall installation

These warm, natural wood walls offer installation flexibility and a variety of design options.

KEY SELECTION ATTRIBUTES

(new) · 10 new standard finishes on solid poplar are tinted to replicate naturally occurring wood tones

(new) · Panels are part of the Sustain® portfolio and meet the most stringent industry sustainability compliance standards today

· Coordinating solid wood trims in 4" and 6" depths

· Installation with dowel or flat backer

· The natural warmth of wood can contribute to biophilic designs and building certification standards like the WELL™ v2 "Nature and Place" feature

(new) · Select products included in the FAST134 program – ready to ship in 4 weeks or less

· CleanAssure™ family of products – includes disinfectable panels, suspension systems, and trim

· Custom slat sizes and finishes available for every project

· Install in the ceiling, on the wall, or create ceiling-to-wall transitions

· FSC® certified wood options available as a premium quoted option

# WOODWORKS® Grille – Classics

Solid Wood Wall Panels
Backer or Dowel

FINISH RANGES ON SOLID POPLAR

Our tinted finishes allow the natural character of the poplar to shine through. The images here reflect the visual range that is likely within our product.
Installers will want to lay out panels before installing to achieve preferred aesthetic.
Bleached Grey (GBG)
Classic Grey (GCG)
Carbon Grey (GCB)

Rich Mahogany (GRY)

Antique Oak (GAO)

Red Oak (GRK)

English Chestnut (GEC)

Golden Maple (GGM)

Natural Walnut (GWN)

Warm Oak (GWO)

Forest Walnut (GFW)

CUSTOM FINISHES

NOTE: For integration with Axiom® trim (Black recommended for use with Solid Wood).

SYSTEM INSTALLATION DETAILS

Wall
Grille Panel
Grille Backer
Furring Strips
Screws
Wall Backer Assembly
Slat sizes over 2-1/4" are not recommended for wall applications. Contact TechLine for details at 1 877 276-7876.

PHYSICAL DATA

Material
Dowel, Slats, Backers, and Tegular panels – solid Poplar.

Surface Finish
Clear or tinted semi-gloss coating on all finishes except White (GWH), which has a lacquer finish.

Fire Performance
Class C: ASTM E84 surface burning characteristics. Flame Spread Index 200 or less. Smoke Developed Index 450 or less.

Fire performance will vary between wood species.

Flame stop coating is available as a custom option. Contact ASQuote@armstrongceilings.com for details.

Application Considerations
Variation among panels may occur due to the natural characteristics of the wood and grain.

Design Considerations
Custom slat and panel sizes available. Panel backers are black. Custom backer colors available. For installations where slat alignment is critical, please see the WoodWorks Grille – Forté product line.

Site Conditions
It is very important that panels are climatized prior to installation. Relative humidity between 25% and 55%, and temperatures between 50°F and 86°F, must be maintained.

Installation Consideration
When junction accessory is not used, the result will be a 1" gap between slat lengths.

Seismic Restraint
WoodWorks Grille – Classics panels have been engineered, tested, and approved for application in all seismic areas when installed per Armstrong Ceilings & Walls installation instructions.

FAST134 Program Considerations
Size of Job Matters: Big jobs, over 2500 SF or 50 pieces for shapes/vertical elements will have longer lead times.

Location Matters: Transit time not included. We are ready to ship in 1 week on FAST1 items. However, transit to the states west of Wyoming may add time.

Distributor Truck Schedule Matters: We rely on distribution to help move products around the country. When speed matters, work with your local distributor to ensure FAST134 service.

Stock vs Made-to-Order Matters: FAST3 & FAST4 items are made-to-order and will ship direct to distributor. FAST1 (stocked items) will go through distribution and depend on distributor truck schedules.

Cleaning and Disinfecting
Cleaning and CDC approved disinfecting options available on amstrongceilings.com/cleaning
