 = Items included in the  
Sustain® portfolio

 = Items with Total Acoustics®  
performance

## Programs & Services Used

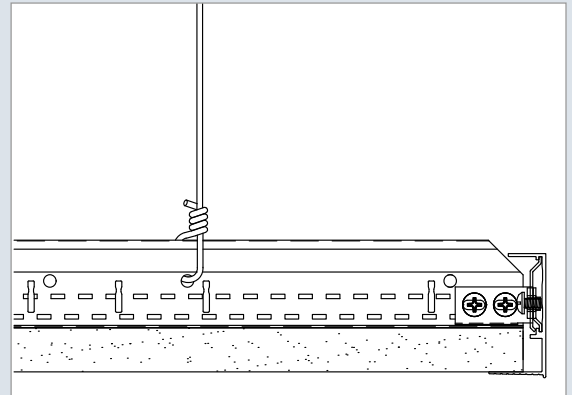

To help ensure feasibility of the architect's design intent and add construction efficiency, ProjectWorks® provided detail drawings. Since the Axiom perimeter trim was prefabricated, ProjectWorks helped optimize the layout's splice locations and the manufacturing trim schedule to yield the least amount of scrap possible. The pre-cut Axiom was shipped to the jobsite, generating no additional waste during construction, resulting in a sustainable enhanced visual.

Shaped Diffusers by Price Industries

## Design Inspiration

AcoustiBuilt Seamless Acoustical Ceiling System provides a smooth non-directional, monolithic visual with Total Acoustics performance.

Section cut detail provided in the ProjectWorks Drawing Package, illustrating how the system is installed.
