**Tectum® Create!™ Direct-Attach Ceiling and Wall Panels from
Armstrong Transform Spaces with Distinctive Image Depth
and Personality**

Texture-rich panels combine printed images with excellent sound absorption

LANCASTER, Pa. – New Tectum® Create!™ Direct-Attach panels from Armstrong Ceiling & Wall Solutions can transform any interior space with distinctive image depth and personality.

The texture-rich ceiling and wall panels combine printed images and acoustics to create beautiful spaces with a variety of standard and custom designs. With an NRC of up to 0.85, depending on mounting method, the 1" thick panels provide

outstanding acoustical performance, making them a great retrofit solution for noise reduction.

[Tectum Create! Direct-Attach](#) ceiling and wall panels are available in four standard designs, including Textured Hex, Exposed Brick, Rustic Plank and Steady Wave. Custom designs can be used to create one-of-a-kind acoustical artwork tailored to any aesthetic.

Available in Two Panel Sizes

Panel sizes include 23 ¾" x 48" and 47 ¾" x 96" with long and short beveled edges. Panels can be directly attached to a wide variety of interior ceiling and wall surfaces.

With repeated panel patterns, Tectum Create! Direct-Attach ceiling and wall panels can span surfaces in both horizontal and vertical directions.

The rich texture of these panels enhances printed images with high contrast to provide an almost three-dimensional visual when viewed from a distance greater than five feet.

Made from cementitious wood fiber, standard Tectum Create! Direct-Attach ceiling and wall panels are part of the [Sustain®](#) portfolio and meet the most stringent industry sustainability compliance standards today. Tectum Create! Direct-Attach panels are also part of the [CleanAssure™](#) family of cleanable, disinfectable products that help make spaces cleaner and healthier.

For more information about Tectum Create! Direct-Attach ceiling and wall panels, visit [Tectum Create!](#). For more support, contact an Armstrong TechLine expert at armstrongceilings.com/techline.
