# SURFACE MOUNT (DIRECT APPLY) – INSTALLATION

Surface Mount products can be installed in one of two ways: with the Easy Up® installation system or adhesive.

## EASY UP® INSTALLATION SYSTEM

NOTE: Both track products and clip accessories are required for a complete Easy Up system and must be used together. Items are sold separately.

**1190** – Easy Up Tracks (20 tracks per carton)

**1191** – Easy Up Clips (360 clips per carton)

**1191SC** – Easy Up Clips (135 clips per carton)

## INSTALLATION STEPS

**1** Attach tracks (1190)

**2** Snap on clips (1191 or 1191SC)

**3** Position tile or plank; slide and secure clip

## ADHESIVE

Surface Mount (Direct Apply) products can also be installed with adhesive such as Henry® 237 AcoustiGum™ Acoustical Ceiling Tile Adhesive. Follow adhesive manufacturer's instructions for application and usage.

Henry and AcoustiGum are trademarks of W.W. Henry Company or its Affiliates.

## 1 WOODHAVEN™ CLIPS AND SCREWS

Installation clips & screws are included in the plank package and install directly to furring strips (sold separately). This installation method is suitable for ceilings with a greater than 10 degree slope. Contact Techline for guidance on how to install planks on a sloped ceiling.

## 2 EASY UP® TRACKS AND CLIPS

The Easy Up® installation system is the recommended method to install planks over drywall, plaster or popcorn ceilings. Use the Easy Up installation system for ceilings with a less than 10 degree slope.

NOTE: Both track products and clip accessories are required for a complete Easy Up system and must be used together. Items are sold separately.

## 3 INSTALLATION STEPS TO COVER BASEMENT GRID

Transform an existing 15/16-in suspended (drop) ceiling using Easy Up® clips and WoodHaven™ planks.

Remove panels

Snap on Easy Up® clips

Position planks; slide and secure clips

NOTE: Existing grid must be 15/16-in. Easy Up clips (sold separately) must be used for the retrofit installation. Screws and clips included in the WoodHaven package are only used where grid intersections interfere with the installation of an Easy Up clip.

Visit [ceilings.com/canada](http://ceilings.com/canada) to order a sample Easy Up clip to test your grid for a snug fit.
